The Montparnasse Tower – Temporary closure for renovation works

at 28 April 2026

The Montparnasse Tower is entering a major new transformation phase to reinvent its Panoramic Observatory and create an even more immersive experience in the heart of Paris.

Description

The Panoramic Observatory and the Event Space on the 56th floor have been closed since March 31st. This closure is part of the complete renovation plan for the Montparnasse Tower, which is now more than 50 years old. This ambitious project is an essential step in meeting new environmental standards and addressing today's urban development challenges.

Due to the scale of the renovation works, the site will remain closed for several years.

Magnicity's teams are already fully mobilized to design a brand-new Panoramic Observatory, imagined as a renewed visitor experience where the exceptional view will take center stage, offering guests an even more memorable experience. Our ambition is to make this future observatory an iconic attraction, reflecting Paris's status as one of the world's leading international destinations.
